

# HP Z27n G2 27-inch Display

Color consistency and performance for the project perfectionist

Be a productive powerhouse with the sleek QHD HP Z27n G2 27-inch Display. This virtually seamless display is factory-tested for reliability and longevity with integrated color calibration, uninterrupted multi-screen<sup>1</sup> tiling, and expansive device connections, including USB-C™.

## Multi-screen productivity with no disruptions

- Streamline multi-tasking on multiple displays<sup>1</sup> with a 3-sided micro-edge bezel, and daisy chain up to 2 displays per workstation with DisplayPort™. Get stunning visuals from 2560 x 1440 resolution<sup>2</sup>, 16:9 aspect ratio, and over 3 million pixels.

## Out-of-this-world color right out of the box

- Consistent, accurate color between displays and from project to project is easier than ever with factory color calibration from the very first time you power on.

## Quality from the start

- We rigorously test each HP Z Display to help ensure it's a reliable, long-life visual solution, and back it up with the HP Zero Bright Dot Guarantee<sup>3</sup>, HP's most stringent pixel policy, which replaces the screen if even one bright sub-pixel fails.<sup>4</sup>

## Future-ready connectivity

- Keep it clean with a single USB-C™ cable video and data connection that's ready for future generations of HP Workstations. VGA, HDMI, and DisplayPort™ are multi-generation compatible, and a three-port USB 3.0 hub supports convenient device connectivity.

## Featuring

- Make the most of your available workspace by mounting powerful machines like the HP Z2 Mini Workstation directly behind the display for a compact, efficient, single-footprint solution.
- Work comfortably with customizable tilt, swivel and up to 150 mm height adjustment. Simplify your workflow with automatic content rotation between portrait and landscape modes.
- Design the screen for how you work with HP Display Assistant software, which enables screen partitioning and helps deter theft by dimming a display that's disconnected without approval.
- Reduce power consumption and help lower costs with an intelligent, energy-efficient, low-halogen display that is ENERGY STAR® certified, TCO qualified, and EPEAT® 2019 registered with mercury-free display backlights and arsenic-free display glass.
- Build a complete solution with optional HP accessories designed and tested to work with your display.
- Rest assured that your IT investment is supported by a three-year standard limited warranty. To extend your protection, select an optional HP Care service.

## HP Z27n G2 27-inch Display Specifications Table

<b>Display type</b>	IPS w/LED backlight
<b>Panel Active Area</b>	23.49 x 13.21 in 59.67 x 33.56 cm
<b>Display size (diagonal)</b>	68.58 cm (27")
